Sisters Network Inc. is a leading voice and the only national African American breast cancer survivorship organization in the United States. The Greater Metropolitan Detroit Chapter of Sister's Network is committed to increasing local attention, education, and resources to address the devastating impact that breast cancer has in the Black community.

In 2026, the American Cancer Society projects about 321,910 new cases of invasive breast cancer and 60,730 cases of ductal carcinoma in situ (DCIS) in U.S. women, alongside 2,670 invasive cases in men. An estimated 42,140 women and 530 men are projected to die from the disease. Black women are 40% more likely to die from breast cancer than women in any other racial or ethnic group. Early detection isn't a slogan; it can truly save lives. There is hope!

October is Breast Cancer Awareness Month

Everyone has breast tissue, don't forget to look and feel your breasts/pecs regularly by conducting a breast self-exam.

Signs to look out for:

- A lump or unusual thickening in the breast or underarm area
- A change in color or rash on the skin of the breast
- Unusual nipple discharge
- Swelling of all or part of the breast area
- A change in size or shape of the breast
- Itchy, sore or scaling of the nipple
- Dimpling on breast skin or nipple turning inward
- Breast or nipple pain that does not go away

Consult your physician if you experience any of the above symptoms of breast cancer and/or if you have any questions or concerns.
